HOME LEARNING DURING SCHOOL CLOSURE - Acorn Class

Children learn best when they are relaxed and interested in the topic being taught. We appreciate that learning at home can be intense for the children and challenging for parents. Therefore, we suggest that for young children most of their learning takes place through play.

For example:

Cooking: could include planning shopping, reading, following instructions, measuring, talking about taste and texture and changes when cooking.

Building with lego: following instructions, planning, building and revising ideas and building finger strength.

Role play: using money, writing lists or labels, conversations.

Reading a bedtime story: building relationships, seeing new ideas, hearing rhymes, learning new vocabulary, making predictions....

Look for opportunities to encourage further learning by taking part in their play or offering new ideas, resources or toys that have been forgotten. The list is endless!

To help you with this we have put together a menu of activities and a guide to the skills they are developing. Please choose 2 a day to complete with your child and adapt, change or add to them to suit your child. You could give your child a choice and tick them off as you go.

If you have any queries concerning this information please use the following email address which we have set up especially : parent@allsaints.herts.sch.uk and this will be checked daily by senior leadership staff. Please ensure you name the child you are writing about and the year group they are in.

This is a very useful document for parents of children aged 0-5
